<u>Subject: Application for Undergraduate Trainee Software Engineer</u>

Dear Hiring Manager,

I am writing to express my interest in the Undergraduate Trainee Software Engineer (One-Year Internship) position at IFS. As an undergraduate student pursuing a degree in Computer Science and Technology, I am eager to apply my technical skills and academic knowledge in a professional setting.

Through my academic coursework and projects, I have developed proficiency in programming languages such as Java, Python, and C++, as well as expertise in database management with MySQL and SQL. Additionally, my experience with front-end technologies like React and my familiarity with Agile methodologies enable me to contribute effectively to software development teams. My ability to collaborate in cross-functional environments, coupled with strong problem-solving and analytical skills, makes me a suitable candidate for this role.

I am particularly drawn to IFS's commitment to innovation and AI-driven solutions, and I am eager to be part of an organization that values technological advancement and global impact. I welcome the opportunity to further discuss how my skills and enthusiasm align with the objectives of your team.

Thank you for your time and consideration. I look forward to the possibility of contributing to IFS.

Best regards,

P.U.M. Wijayanthi
